6. **Numbers** will be provided by the organisers and should be displayed on the top left corner of the windscreen as seen by the driver.
7. **Safety** - Competitors must be aware of pedestrians and other vehicles while moving between tests and must drive slowly between them. No wheel spinning or skidding in areas other than the tests. Any driver found to be contravening this will be excluded from the event and asked to leave the site.
8. **Judges of fact** - All marshals and officials, other than club steward, are judges of fact.
9. **Tests** - There will be three tests and each test will be run at least twice but we will aim to run each test three times. The number of runs will depend on weather conditions. The tests will consist of a series of straights and turns defined by traffic cones and pairs of cones of various sizes. Pairs of cones will be set between 3.5m and 5.0m apart. Straights will be no longer than 60m.
 - Test diagrams will be issued at signing on
 - Practising is not allowed
 - Pre-walking the tests is allowed in accordance with the scheduled times. It is highly recommended that you pre-walk the tests.
 - The order in which the competitors attempt the tests is at the organisers' discretion.
 - To be classed as a finisher the competitor must complete each test site at least twice. i.e. complete two out of the three rounds.

i) **Timing, marking and penalties**

- Timing will be by handheld digital stopwatch/device to the previous whole second. The starting signal will be "in your own time". Timing will start when the front wheels cross the start line and will stop when the front wheels cross the flying finish line. The vehicle must then come to a complete stop before stop line. Failure to stop before this line will incur a penalty of
- The total time for a competitor will be the sum of their times and penalties, if applicable, for a competitor. **All test times to count.**
- Marking and penalties will be in accordance with Motor Sport UK Regulations M9.4, Table M7, except that the **maximum penalty** that can be incurred on any test is the fastest correct time in the class for that **test plus 30 seconds**. This will always be awarded for a Wrong Test. (Classes may be amalgamated to be able to calculate this but will not affect class positions)
- **Striking a pylon** incurs a **5 second penalty**
- **Failing to stop** before the stop line – **10 seconds**
- **Wrong Test**, (failing to follow the intended test path) – **maximum**. A competitor may correct their mistake by going back to where the mistake was made and taking the correct path without incurring the wrong test penalty.
- **All four wheels off** the tarmac- **maximum**
- **Deliberately delaying starting a test or failing to come to the start line when asked to do so by a start official**, to gain an advantage – **maximum**. Start marshals or clerk of the course will be judges of fact in this case.
- **Failing to start** a test – **999 seconds**. This will be used to calculate overall scores and positions. (If a competitor cannot start a test for mechanical reasons that can be fixed in a short period of time, they may start late at the discretion of the start marshal on that test or the clerk of the course. The marshal's or clerk's decision will be final. In any case competitors must inform the start marshal when the problem first occurs.)
- **To break a tie for FTD or 1st in class**, the driver with the fewer penalties, (shortest cumulative time and penalties, if any), from the start will be judged the winner. (Tests 1,2, 3 then 4, 5, 6 then 7, 8, 9). If that doesn't resolve a tie, then the car's engine capacity will be considered with the smaller capacity having the advantage.

10. **Awards** will be presented as follows
 - Fastest Overall Time of the Day, an award
 - First in each class, an award, this will be awarded only if there are three or more starters in the class.
 - First Junior ages 14, 15 or 16, an award
